Re: November Utilities Meeting Agenda

Attached is the agenda for the Utilities Committee meeting to be held Tuesday November 1, 2005. ***Please contact city hall if you are unable to attend (431-2841)***

Item 4: In June, Lynn Patterson, engineer with Duke Power explained to the Committee that work would commence in August on the approved street light projects (Fairview Church Road and Ronniedale (entire lengths of both); Curves and dark areas along Turnpike and Mendenhall.) I will try to provide a progress report.

Please try to review the lighting at the following locations:

1. I-85 at the Interchanges. The Committee agreed to reevaluate lighting at those locations instead of lighting the entrance/exit ramps.

2. Street light at 5003 Collins St. Resident Clifford Bean asks that Trinity take over paying the light bill for a private street light he has installed (presumably) on his property at that location. He says that he is paying for the light, but many other residents benefit. Please take a look at the light in question so that his request can be discussed at the meeting.

Attachment: map

Item 6: Proposed amendment to Sewer Use Ordinance. The proposed amendment affirms the City's commitment to adhering to Davidson Water's policies for metering water.

Attachments: Proposed amendment; excerpts from Sewer Use Ordinance
